Summary

Remote-ready Software Engineer based in Hatfield, United Kingdom, specializing in full-stack and frontend development with a focus on JavaScript/TypeScript, React.js, and Node.js. I am passionate about building scalable web and mobile applications, leading teams, and adapting to fast-paced startup environments.

Education

- MSc. **Data Science** – with **Distinction** – 2024-2025 **University of Hertfordshire, Hatfield, United Kingdom, AL 10 9AB.**
- Bachelor of Engineering: **Electronics and Communication Engineering** – 2013-2017 **Motilal Nehru National Institute of Technology, Allahabad, UP-211004, India.**

Skill Highlights

Core Technologies: TypeScript, JavaScript, React.js, Node.js, Express.js
Mobile & Frontend Frameworks: Vue.js, Vuetify.js, Vuex, Nuxt.js, Electron.js, Quasar Framework , TailwindCSS, Bootstrap, PHP, WordPress, Flutter (basic exposure), React Native (explored through self-learning projects)
Backend & Databases: Express.js , MongoDB (self-learning projects), MySQL, PostgreSQL, DynamoDB (explored through AWS projects), Socket.io
DevOps & Cloud: AWS (EC2, Serverless basics), Docker, Git (GitHub, GitLab), CI/CD pipelines
Testing & Tools: Jest, Vue Test Utils, Cypress.io, Puppeteer
Data Science & Analytics: Python, Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, PySpark, Keras, Random Forest, XGBoost, Resnet50
Leadership and Collaboration: Team leadership, mentoring, code reviews, cross-functional collaboration, technical hiring.

Professional Experience

Senior Frontend Developer - 12/2022 to 06/2024
Orkun Solutions Co., Ltd., Phnom Penh

- Led a team of 15 frontend developers to deliver scalable web applications using React.js, Typescript and Node.js, reducing post-development bugs by 40% through standardized code reviews and workflows.
- Architected a custom React.js component library that accelerated development speed by 25% and reduced UI bugs by 60% across multiple client projects.
- Collaborated with backend teams to integrate RESTful APIs and Socket.io for real-time communication, enhancing user experience for a scheduling and communication platform.

- Mentored junior engineers through pair programming and code reviews, fostering knowledge sharing culture and improving team output while setting technical excellence standards.
- Contributed to architecture discussions, proposing optimizations for Express.js backend services that improved API response times by 20%.

Senior Programmer - 07/2022 to 11/2022

Nagaworld Integrated Resort, Phnom Penh

- Rapidly adapted to new tech stack (Flutter, Dart, PHP, Wordpress) within two weeks, integrating mobile application with backend systems serving 5000+ daily users.
- Worked in a fast-paced environment and delivered production-ready features with minimal ramp-up time.
- Collaborated with cross-functional teams to implement mobile-first features and ensure seamless data flow.

Software Engineer- 01/2020 to 06/2022

Aistra Consultancy Co. Ltd., Phnom Penh

- Developed and maintained 10+ full-stack web applications using Vue.js, Vuetify.js, Express.js and MySQL, delivering end-to-end products from ideation to deployment.
- Built automation solutions including cron jobs for data migration from MySQL to ERP systems, reducing manual processing by 40-50 hours weekly and improving operational efficiency.
- Implemented web scraping solutions with Puppeteer to enable data extraction for analytics, improving data availability by 50%.
- Deployed and hosted applications on AWS EC2, managing production infrastructure and ensuring system reliability.
- Collaborated with designers and senior developers to architect scalable solutions balancing impact, effort and user experience.

Web Developer, R&D Team- 10/2018 to 12/2020

Primuson Pvt. Ltd., Kathmandu

- Built a full-stack web application usingVue.js, Express.js, Node.js and MySQL, accelerating product release by 20% through efficient development practices.
- Led frontend development for client portal, incorporating user feedback to enhance UX and drive 30% increase in user engagement.
- Received certificate of appreciation for driving faster product releases through innovative solutions and collaborative teamwork.

Software Engineer, - 07/2017 to 09/2018

GlobalLogic Pvt. Ltd., Noida

- Transitioned from Electronics Engineering to Software Engineering, mastering Javascript and frontend development for SiriusXM's maintenance projects
- Demonstrated adaptability by learning new tools and frameworks to align to 2 different projects and meet client needs.
